The Black Goods Show-
ing of this Store is not
Surpassed Anywhere.

You can come pretty near judging the status of a dress goods department by the quality and variety of its Black Goods. We are perfectly willing that our department should be measured by this standard.

Sunday's paper spoke principally about the colored fabrics—incidentally mentioning the black—not that we consider the black goods a secondary consideration by any means for as we said above, our dress goods section can stand or fall by the quality of its black fabrics.

During the past few weeks we have received piece after piece of Black Woolen Dress Goods and to-day this stock has no superior anywhere in the South.

Serges, Cheviots, Etamines, Meltons, Unfinished Worsteds, Mistral, Prunellas, and the new Wool Peau de Soie—and just here let us say a word about the latter fabric, which is mentioned below: It's a fine silk finish, soft to the touch, and can be worn all through the year.

We think it one of the best pieces of black goods we've ever had in the house. Let us know what you think about it.

German Broadcloths.

The Germans make the best Black Spotless Broadcloths for ladies' wear that we have been able to find anywhere. Two of our best numbers are the

Cora, at \$2.50,

and the

Carmen, at \$3.00.

These goods require no sponging, but if you wish to sponge them, they will retain their lustre even after that.

Black Unfinished Worsteds, \$2.

Black Melton Cloth, \$1.50.

SAVE OUR YOUNG WOMEN!

Thousands Employed in Our Large

Departmental Stores and Public

Offices Are Now Weak

and Sickly.

Tell Them of

Paine's Celery
Compound

Women's Unfailing Regulator and
Health Giver.

In the mammoth departmental stores and large public offices of our leading cities there are thousands of young women employed. From the morning opening hour till these vast hives of industry close their doors, these women are expending their energy and strength in serving their masters and a critical public. Long hours, close confinement, imperfect ventilation, excitement and brain worry, soon leave marks of creeping disease and sickness. Headache, sleeplessness, indigestion, constipation, neuritis, rheumatism, and nervousness make the lives of young women miserable and almost unbearable. In thousands of cases the traces of terrible blood troubles are seen in the faces of those who should look healthy and active.

To the class of suffering young women just referred to, we would say that Paine's Celery Compound is a blessed agent of health and womanly vitality. This medicine is a positive and true nerve tonic, and a powerful blood purifier. It tends to constipate, to strengthen the stomach, keeps digestion perfect, the brain pure, nutrition of all organs, and refreshing sleep takes the place of insomnia, and the rose blush is brought to the face. We urge all the sickly and weak young women the necessity of Paine's Celery Compound for their peculiar ailments. It is a powerful blood purifier; it will give you the same happy results.
